

JOHN M. LAROQUE,
AT HIS
CHEMICAL PHARMACY,

Corner of Harrison & Market streets,
BALTIMORE,

Respectfully informs the public that he keeps constantly on
hand a select assortment of FRESH

DRUGS, CHEMICALS,

AND A SUPERIOR VARIETY OF

PERFUMERY,

Chiefly prepared by himself, which he offers at Wholesale
and Retail. He has also the following preparations, which
have been universally approved by all who have used them, viz:

LAROQUE'S SARSAPARILLA.

The great success of this remedy during the many years that
the subscriber has prepared it, induces him to offer it to the
public generally as an efficacious remedy in all cases of
Scrofula, Pimples, Eruption of the Skin, Scald Head, Tetter
and Ring Worms, Scurvy, and Sores of every description,
whether mercurial or scrofulous. In Liver complaint, when
the complexion is sallow, and there is a deficient secretion of
bile, this remedy will restore a healthy action to this organ,
and the blood, when impure, will be caused to throw off the
obnoxious matter, without endangering any vital part of the
internal system. Females who will use this remedy conjointly
with the celebrated

ASPASTA LOTION,

Will retain their freshness and beauty to an advanced age, as
did the renowned Ninon de Zenclos, who at the age of eighty,
was remarkable for her freshness and beauty.

LAROQUE'S ROSE DENTRIFICE,

For cleaning, preserving, and beautifying the Teeth, Gums,
&c., and producing a pleasant breath.

COUGH SYRUP,

Which will ease Consumptive patients, and cure in the inci-
pient stage. His

ELIXIR OF BARK

Is recommended in case of debility, and to those exposed to
damp weather, to prevent Chills and Fever.

FLORIDA WATER,

Of which he is the Inventor; the celebrity of this perfume
has induced many to manufacture a spurious article under the
same name.
