FIRE-PROOF IRON CHESTS,

AND

MONEY BOXES.

J. SCOTT informs his numerous friends and customers, from the different parts of the continent, that he is prepared to furnish those who may want a perfect FIRE and ROBBER-PROOF IRON CHEST, warranted to stand four times as much fire as any other now made in this, or any other country. His stock consists of all sizes and qualities.

The Robber-Proof cannot be Picked or Opened, even by their own key, without instructions, and which will be guaranteed in the sum of \$500. Those who may want a safeguard against Fire and Robbers, cannot be better supplied in any other place; they have proved themselves to be what they are called, FIRE AND ROBBER-PROOFS.

They have been tested in the different large fires, where they have been subjected to the most intense heat. In the cities of New York, Boston, Philadelphia, Baltimore, Richmond, Washington City, Charleston, Mobile, New Orleans, St. Louis, Cincinnati, and in a number of other towns in and out of the Union. The results are set forth in the most satisfactory manner.

A few of the most respectable References are here given :

N. B. Another test of the superiority of my Patent Asbestos over Mr. Wilder's best Salamanders, took place in Exchange Place in March last, all the papers, books, &c. being taken from my Chest *perfect*, while all in Mr. Wilder's Chest were *consumed*; as proved by a Committee of Citizens, whose certificate the Patentee, JOHN SCOTT, can show.
