

expedient for carrying any system or systems of sewerage or drainage, projected and adopted, into full effect and operation. And the said Commission is hereby specifically empowered to construct and maintain, without compensation to the State any part of a system or systems of sewerage or drainage of its works or appurtenances, over or upon any land covered by the navigable waters of the state, the title to which is held by the State, and if the same be deemed advisable by the said Commission, the Governor of Maryland is hereby authorized and directed, upon application of the said Commission, to execute and deliver to the County Commissioners of Montgomery County such deed or deeds as may be proper for the full confirmation of this grant.

(e) The power to incorporate with any system or systems of sewerage or drainage, or otherwise utilize for the purpose of this Act, so far as it may deem necessary or expedient, any or all existing public sewers or drains, including storm water sewers or drains, open ditches, natural channels or water courses in Montgomery County, and any or all appurtenances, either in their present condition or with such repairs, modifications or changes as said Commissioners may see fit to make, and to condemn, abolish, close up or destroy in its discretion, any or all such existing sewers, drains, open ditches, natural channels or water courses, and to alter their junctions or increase their burdens as it may deem best.

(f) The power to acquire by condemnation, purchase or otherwise, and to incorporate with any system or systems of sewerage or drainage projected, constructed, established or maintained in accordance with the provisions of this Act, such private or municipal systems of sewerage or drainage existing at the time of this Act, or hereafter establish, in such condition as they may be, or with such repairs, changes, modification as the Commission may see fit to order; or to compel the repair, change or modification or connection of such private or municipal system of sewerage or drainage with the County system or systems; or to condemn for use, close up, or cause to be abolished or removed in its discretion any private or municipal system or systems of sewerage or drainage, the operation of which in the opinion of the said Commission is harmful to public health and welfare, or is a nuisance.

(g) The power to frame, promulgate, and enforce reasonable rules and regulations for the supervision, protection, management and conduct of work done in connection with the con-
