

law, provided however, that all such rules and regulations effecting the sanitary efficiency of said systems be approved by the State Board of Health. Any person violating the provisions of any such rule, order or regulation, shall be deemed guilty of a misdemeanor and shall be subject to a fine of not less than five nor more than one hundred dollars, to be enforced and collected, as other fines are enforced and collected under the laws of the State.

SEC. 529-C. *And be it further enacted,* That the power to establish sewerage or drainage systems in and for said County or parts thereof so delegated to the Sewerage and Drainage Commission shall include the power to do all things which may be necessary or incident thereto, among which shall be the following:

(a) The power to limit or define the boundaries or extent of sewerage or drainage districts or areas.

(b) The power to make all such preliminary work as should be in the opinion of the Commission precede the actual projection, construction or establishment, by themselves, or any individual, corporation or municipality, of any sewerage or drainage system in Prince George's County.

(c) The power to project, construct, adopt and maintain any such system or systems of sewerage or drainage or parts thereof, as it may deem best calculated, to promote and preserve the public health and welfare, including the power and authority to include in such systems, whether separate or combined, provisions for the collection and disposal of storm, ground or surface water.

(d) The power to create or use, or cause to be created and used, all such instrumentalities and means within said Prince George's County, or in conjunction with the proper authorities thereof of any adjacent County of the State, including such submerged as well as other lands, as it may deem necessary and expedient for carrying any system or systems of sewerage or drainage, projected and adopted, into full effect and operation. And the said Commissioner is hereby specifically empowered to construct and maintain without compensation to the State any part of a system or systems of sewerage or drainage or of its works or appurtenances or of their works or appurtenances, over or upon any land covered by the navigable waters of this State, the title to which is held by the State, and if the same be
