

be required by the Board. The State Board of Health may thereupon order the preparation and submission of such plans and specifications, within a specified time, as it may deem necessary for furnishing adequate water supply and sewerage service to said sub-division; and it may at any time order the installation, within a specified period, in accordance with the plans presented or approved revisions thereof, of the whole or any part of the water supply and sewerage systems for said sub-division as the public health may, in its judgment, require.

SEC. 11. *And be it further enacted*, That whenever the State Board of Health shall find that any of the waters of the State are polluted by wastes from any manufacturing or industrial establishment, in such a way as to be or to be liable to become a menace to the public health or comfort, or whenever the existing method of waste disposal in a manufacturing or industrial establishment is found to be or be liable to become in any way a menace to health or comfort, the State Board of Health shall issue an order requiring the owner of such establishment to cease pollution of the body of water into which the waste is discharged, or to make such alterations in the method of disposing of said waste, as the Board may deem necessary to protect the public health and comfort; and said order shall be complied with within such time as the State Board of Health shall determine. Plans for all such changes in the method of disposing of trades wastes shall be submitted to the State Board of Health for approval, and all construction shall be carried out in conformity therewith. If the State Board of Health shall approve the plans submitted, it shall issue a permit for the use of the method proposed for taking care of the waste, and no revised method for taking care of said waste shall be put into effect without such permit. The owner of any manufacturing or industrial establishment shall submit to the State Board of Health, on demand, all plans, information and records regarding the existing methods used for the disposal of wastes at that establishment.

SEC. 12. *And be it further enacted*, That whenever the State Board of Health shall find that the water or ice from any public or private source of water or ice supply is, or is likely to become, dangerous to health, or that the discharge of sewage or the method of disposal of sewage or refuse, from any system or
