Price \$3 00.

BILLIARDS WITHOUT A MASTER.

The above-named work, the first American publication of the kind, is illustrated by 50 fine copper-plate diagrams, each containing from 1 to 24 shots, from which sufficient knowledge may be acquired to enable the player to accomplish any possible stroke on the billiard table, all of which are fully explained on the pages opposite to the respective plates. The work contains an invaluable and original invention in the shape of a chart, or scale of strengths necessary to be used in making each shot, of an arrangement so simple that it can be comprehended by all, and will be found of the highest importance to the novice and amateur, as every shot there delineated has been graduated by it, and the quantity of strength necessary to be used is given in the description annexed to each plate. It contains, also, a full and complete set of rules for the government of the game of billiards, and the various games of pool; hints to players; advice to amateurs; with a variety of explanations interesting to all connected with billiards or billiard playing. To keepers of billiard rooms, the "Rules" are worth more than the price of the work, and the hints and advice are invaluable. Accompanying the work is a treatise on the origin, rise, and progress of the game. It is also embellished by a fine steel-plate frontispiece, showing a billiard table and players in position. The above work is the most complete one of the kind ever produced in any part of the world, and the only one in which the theoretical science and philosophy of the game has ever been explained.

OPINIONS OF THE PRESS.

BILLIARDS WITHOUT A MASTER.—The most complete and perfect book of the kind ever issued; a mere tyro at billiards by studying the text and diagrams, may, with a little practice and a steady hand, compete with professed players.—*United States Gazette.*

Mr. Winant, the publisher, deserves the hearty thanks of the whole world of billiard players for his liberal expenditure in furnishing them with the only fully illustrated book on the science of billiards.—*American Post.*

BILLIARDS WITHOUT A MASTER.—The Shakespeare of the age—"not for a day, but for all time." Published by D. D. Winant, New York.—*Louisville Journal.*
