

[CONTINUATION OF PHYSICIANS' CERTIFICATES.]

From J. E. Marsh, M. D., Kent Co., Md.

"I have made free use of your Diarrhoea Cordial in my family. It gives me much pleasure to add my testimony to that of others in favor of its efficiency."

From Sam'l Martindale, M. D., Chesapeake City, Md

"I have much pleasure in adding my testimony in favor of your valuable Cherry Expectorant. I have, after an extensive use, found it to answer all my expectations."

From Dr. Daniel W. Jones, Somerset Co., Md.

"I have given your Expectorant and Diarrhoea Cordial a fair trial, and am delighted with their effects, never having had them to fail in a single instance. I shall take pleasure in recommending them.

We have been favored with a written certificate, cheerfully given by numerous medical gentlemen in Maryland, Virginia and Ohio, which alone should convince the most doubting, that these are really 'Good Medicines;' after stating that they are acquainted with the composition of both the Expectorant and Cordial, and that they have administered them to their patients, they testify "that they are remedies of great value, safe, efficient and well worthy of the patronage of the Profession and the public, that they are more reliable than

any other proprietary medicines with which we are acquainted," &c.

Sixteen of the best Apothecaries and Pharmacutists in the City of Baltimore, write, "We are satisfied these preparations are medicines of great value and very efficient for the relief and cure of the diseases for which they are recommended, and we take pleasure in recommending them."

Thirty-six of the most respectable Merchants, residents of Maryland, Virginia and North Carolina, who have sold and also used these medicines themselves, say, "We have never known any remedies used for the diseases for which they are prescribed, to be so efficient and to give such entire satisfaction to all."

The above notices of recommendation from members of the Medical Faculty, Pharmacutists of high standing and Merchants of the first respectability, should be sufficient to satisfy all, that these medicines are worthy of trial by the afflicted, and that they are of a different stamp and class from the "Quackery" and "Cure-Alls" so much imposed upon the public.

See the descriptive Pamphlets, to be had gratis of all who have the medicines for sale, containing recommendations from Doctors Martin, Baltzell, Addison, Payne, Handy, Love, &c.

STABLER'S DR. CHAPMAN'S WORM MIXTURE,

Prepared from a Recipe invented by Dr. JOHN CHAPMAN, a member of the ROYAL COLLEGE OF SURGEONS OF LONDON.

A REMEDY MORE EFFICIENT THAN THIS IS NOT KNOWN.

MANY (perhaps one-half) of the diseases from which children suffer, are occasioned by the presence of worms in the system, and if neglected give rise to the most uncomfortable and irritating feelings, violent pains, sickness at the stomach, emaciation, and frequently to vomiting. This Medicine is an efficient, safe and pleasant remedy for their extermination; it contains all the virtues of the most approved vermifuges, and although it has been used by many thousands, and has been before the public for several years, it has NEVER BEEN KNOWN TO FAIL IN AFFECTING A COMPLETE CURE.

This most excellent Medicine has made its way into favor by its merits alone, unaided by advertisements or certificates of cures, (many thousands of which could be obtained,) yet it is deemed not inappropriate to print the following strong and convincing testimony from respectable Merchants who have kept it for sale.

"The subscribers, Merchants and Dealers, take pleasure in recommending to the public confidence, Stabler's Dr. Chapman's Worm Mixture, prepared by E. H. Stabler & Co., of Baltimore. We having, for several years past, kept this valuable Medicine for sale, and also used it in our own families, do, from our own knowledge of its admirable effects, backed by the universal commendations of the great number of our customers, who have given it a trial, believe it a specific for worms in children;—we have never known it to fail, in a single instance, to relieve the little sufferers from that disease."
