

regulations governing the sub-division of land within its jurisdiction. Such regulations may provide for the proper arrangement of streets in relation to other existing or planned streets and to the master plan, for adequate and convenient open spaces for traffic, utilities, access of fire-fighting apparatus, recreation, light and air, and for the avoidance of congestion of population, including minimum width and area of lots.

Such regulations may include provisions as to the extent to which streets and other ways shall be graded and improved and to which water and sewer and other utility mains, piping, or other facilities shall be installed as a condition precedent to the approval of the plat.

SEC. 14. *Be it enacted*, That the planning commission shall approve or disapprove a plat within 30 days after the submission thereof to it; otherwise such plat shall be deemed to have been approved, and a certificate to that effect shall be issued by the commission on demand; provided, however, that the application for the commission's approval may waive this requirement and consent to an extension of such period. The ground of disapproval of any plat shall be stated upon the records of the commission. Any plat submitted to the commission shall contain the name and address of a person to whom notice of a hearing shall be sent; and no plat shall be acted on by the commission without affording a hearing thereon by all persons interested therein, including the owners of land immediately adjoining. Every plat approved by the commission shall, by virtue of such approval, be deemed to be an amendment of or an addition to or a detail of the municipal plan and a part thereof. Approval of a plat shall not be deemed to constitute or effect an acceptance by the public of any street or other open space shown upon the plat. The planning commission may, from time to time, recommend to the Board of Aldermen amendments of the zoning ordinance or map or additions thereto to conform to the commission's recommendations for the zoning regulation of the territory comprised within approved sub-divisions. The commission shall have the power to agree with the applicant upon use, height, area or bulk requirements or restrictions governing buildings and premises within the sub-division, provided such requirements or restrictions do not authorize the violation of the then effective zoning ordinance of the municipality. Such requirements or restrictions shall be stated upon the plat
