

taken an examination in another state on subjects which are the equivalent of that required in the State of Maryland, but has failed to take an examination on other subjects required for admission to practice in the State of Maryland, he may at the discretion of the Examining Board be granted credit on the approved examinations and be required to be examined only on the subjects in which his original examination was deficient.

(d) *Exempted Applicants.* All citizens of Maryland applying for registration on the basis of exemption on account of having been engaged in the profession of Architecture under the title "Architect" as a principal, for a livelihood, at the time of the passage of this Act, 21 years of age and of good moral character, provided that any such person shall register within one year from June 1, 1935.

The Examining Board shall have power to issue licenses for practice as architects to those found to have the proper qualifications to practice, and to revoke or suspend said license for any violation of the provisions of this law.

Any person applying for registration, who is twenty-one years of age and of good moral character and who has satisfactorily completed a four-year course of architecture in any recognized day or night school in the City of Baltimore or in the State of Maryland, and who has served five years in the contracting business, either in an office or in the field, shall be registered without examination and shall be entitled to practice with all the rights and privileges of a licensed architect, under the provisions of this law.

**Section 394. Persons Exempt.** The following persons shall be exempt from the provisions in this Act:

(a) Professional and practicing engineers who are engaged in giving or offering to give for a consideration unbiased advice to clients concerning the selection of site or structural design of buildings, the repair or alteration to existing buildings, or any other service in connection with the planning or supervision of construction of buildings where the consultant charges for knowledge and skill and has no prejudicial interest in the project either as owner, contractor or producer or seller of material, and who holds himself out as able to perform or who does perform any professional service, such as consultation, investigation, evaluation, planning, structural design or responsible supervision of construction, in connection with any private or public buildings, structures or projects, or the equipment or utilities thereof, or the accessories thereto wherein the safeguarding of life, health or property is concerned or
