

water or sewer connection as it may deem necessary to eliminate leakage, loss of water or unnecessary or improper use of sewers. The said Commission shall exercise control of the water supply at all times, and in case of a shortage of water or for any other reason where the water supply should be conserved in the discretion of the said Commission and upon notice to the consumer by its agents or employees, or any newspaper published within said county one time of an order passed by said Commission to conserve the water supply. Any violation of said order shall be a misdemeanor punishable under Section 444 of this sub-title; and in addition to the penalty prescribed the Commission may turn off said water supply of any person violating said order at any time without further notice. No private or semi-public water supply or sewerage installation intended for the use of two or more buildings or premises shall be constructed in any sanitary district without the person, firm or corporation doing the work having first obtained a permit from the Commission and paid a reasonable charge therefor, and such plant shall then be installed, maintained and operated under such rules and regulations as the Commission may require or devise. Any violation of any of the provisions of this section shall be a misdemeanor punishable under Section 444 of this sub-title.

435. Every water and sewer connection as provided in this Act, the Commission shall make such charge as it shall determine to be reasonable, based upon the width of the street, road, alley or right of way in which the connection is made; provided, however, that the connection charge on either side of the street, road, alley or right of way shall be uniform. All of the revenue above actual cost derived from such charges shall be retained by the Commission as a fund for repairs, replacements or any extraordinary expense in the maintenance and operation of the water supply, sewerage and drainage systems under its control.

436. All sums collected by the Commission for benefits levied against the property for water supply, sewerage or drainage construction shall be set aside as a separate fund to be known and designated the "Current Interest and Sinking Fund," from which fund interest shall be paid on all outstanding bonds, and the balance, if any, transferred to the "Joint Sinking Fund Account," as provided in Section 430. The Commission, in order to determine the amount which it may
