

Any system of roads, which it will be the intention of the County Roads Board to turn over to the State Roads Commission, shall have the specifications and design of said road approved by the State Roads Commission before construction is begun.

After the compilation of all the data heretofore mentioned, the County Roads Engineer shall call a meeting of the County Roads Board and a long-range plan for the construction of county roads shall be presented and acted upon by said Board.

It shall then be the duty of the County Roads Engineer, after such plan is approved by the County Roads Board, to proceed to construct, insofar as funds are available, such roads as are most needed, priority being given to roads having the greatest traffic count.

127A. The said Engineer shall have authority to make such repairs, reconstruction or emergency construction necessary to remedy any serious defects in the existing system, although the traffic survey and long-range road plan may not call for such construction.

The County Roads Board is hereby authorized to buy such equipment as is necessary for the construction of roads and to buy and operate stone crushers for the manufacture of materials for road building.

The said Board is authorized to enter into an agreement with abutting property owners along a road to construct roads on a basis of the abutting property owner furnishing one-third of the cost and the county two-thirds.

127B. The County Commissioners are hereby authorized to borrow upon the faith of the County the sum of fifty thousand dollars (\$50,000.00) per year for the construction of roads and shall include in the next year's levy a sufficient amount to repay said loan.

All funds appropriated and designated for County road purposes by either Federal, State or county governments shall be paid to the County Treasurer, but are to be withdrawn only upon presentation of vouchers duly authenticated by said Board. The County Roads Engineer shall have authority to issue vouchers for ordinary expenses, including salaries of workmen and employees, providing said power is granted him by the County Roads Board.

127C. The said Board shall have power to cooperate and contract with agencies of Federal, State, county or local governments for the construction or maintenance of roads under its supervision. Said Board shall have the power to enter into contracts with individuals, firms or corporations for the purpose of carrying on the construction and maintenance of the
