

of the General Assembly of Maryland of 1937, codified as Section 46EE of Article 97 of the Annotated Code of Public General Laws be and the same is hereby repealed and re-enacted to read as follows:

46EE. No person shall make or issue a delivery ticket for solid fuel as provided in this sub-title unless such solid fuel has been weighed as herein provided by a weightmaster duly licensed by the Bureau of Mines. Application for a license shall be made upon the form prescribed by the Chief Mine Engineer, shall state the name and address of the applicant's employer and shall be verified by the oath of the applicant. In addition the applicant shall furnish satisfactory evidence of good moral character, and of ability to weigh accurately, and make correct weight tickets. The Bureau may issue a license upon the payment of the annual license fee of ten dollars (\$10). The license may be renewed for successive periods of one year each, upon payment of a license fee of ten dollars (\$10), which license shall be kept in the place where the weightmaster is engaged in weighing and shall be open to inspection. Every licensed weightmaster shall notify the Bureau in writing of any change of the name or address of his employer. A license may be suspended or revoked by the Chief Mine Engineer after hearing, upon due notice to the licensee, for dishonesty, incompetency, inaccuracy, or any violation of the provisions of this sub-title. No licensed weightmaster shall knowingly permit any delivery ticket to be used or issued which purports to bear his signature which was not in fact signed by him or which expresses a weight not ascertained by him, nor shall any person use a delivery ticket not signed by a licensed weightmaster, nor knowingly issue or use a delivery ticket which purports to bear the signature of a licensed weightmaster, but which was not in fact signed by such licensed weightmaster. No licensed weightmaster shall weigh up and sign a delivery ticket for any load of solid fuel unless such load is weighed by him on scales located within the State, which have been tested, approved, and sealed within twelve months, by the Bureau of Mines, or, in case of scales located within the City of Baltimore, by the Division of Weights and Measures of the Department of Public Works of the City of Baltimore, and unless within twenty-four hours preceding the weighing of the vehicle loaded he shall have first weighed the vehicle empty to determine the true tare weight of the vehicle unloaded and unless all the wheels of the vehicle, tractor, trailer, or semi-trailer included, transporting the solid fuel are on the scale at one and the same time, provided, however, that if the tractor is disconnected from the trailer
