

Chapter 849, and was signed by me on April 15th and is now effective. Inasmuch as Senate Bill No. 305 would duplicate the provision already made in the Bill which is now law, I have concluded to veto it, which action on my part is agreeable to its sponsor.

Chapter 452 (House Bill 87). This Bill duplicates a portion of Chapter 849 (Senate Bill 45), already signed, which latter Bill was more general in its scope.

The Board of License Commissioners of Baltimore City point out that no purpose would be served in signing this Bill after the enactment of the general measure and, hence, House Bill 87 is vetoed.

Chapter 625 (House Bill 52). Inasmuch as Senate Bill No. 298, which was an Administration measure divorcing the State Accident Fund from the State Industrial Accident Commission, has been signed, it is unnecessary to have House Bill No. 52 in effect as the provisions made in the latter Bill are taken care of in the general statute providing for the new set-up.

The Chairman of the State Industrial Accident Commission advises that the signing of the second bill is unnecessary and, therefore, I shall veto it.

Chapter 517 (Senate Bill 338). This measure is covered by Chapter 333 (House Bill 446) which is already signed (see Attorney General's opinion, April 26, 1941, page 2).

The Senator introducing this measure agrees that it should be vetoed in view of the other enactment.

Chapter 130 (Senate Bill 281). This measure conflicts with Chapter 443 (Senate Bill 434) which has already been signed. The Attorney General states that Chapter 130 should be vetoed in order to avoid complication.

Chapter 212 (Senate Bill 62). This Bill is inconsistent with Chapter 84 (Senate Bill 101) which has already been approved. The Attorney General advises that since the two Bills are inconsistent, Chapter 84 is the more important, and therefore, he suggests that Chapter 212 be vetoed.

Chapter 160 (House Bill 312). This Bill is covered by a State-wide Bill dealing with the same subject matter; see Chapter 469. The State Law Department advises that Chapter 160 would therefore be a duplicate and should be vetoed as unnecessary.
