

L. "Unwholesome" shall mean and indicate a substance, the human consumption of which is liable to introduce, cause or increase sickness, or impair or derange body functions, or otherwise be injurious to health.

M. "Cream" shall mean that portion of milk which contains not less than 18% milk fat.

N. "Sour Cream" shall mean cream, the acidity of which is more than 0.20%, expressed as lactic acid.

O. "Buttermilk" shall mean the product resulting from churning milk or cream, or from the souring or treatment, by a lactic acid or other culture, of milk, skimmed milk, condensed or evaporated milk or condensed or evaporated skimmed milk, or milk or skimmed milk powder.

P. "Vitamin D Milk" is milk, the Vitamin D content of which has been artificially increased by a method and in an amount approved by the health authority.

Q. "Homogenized Milk" is milk which has been so treated as to break up the fat globules thereof to such an extent that after 48 hours storage, no visible cream separation occurs on the milk, and the fat percentage of the top 100 cc. of milk in a quart container, or of like proportionate volumes in containers of other sizes, does not differ by more than 5% of itself from the fat percentage of the remaining milk determined after thorough mixing.

R. "Pasteurization" shall mean the process of heating every particle of milk or milk product to at least 143° F., and holding at such temperature continuously for at least 30 minutes, or to at least 160° F., and holding at such temperature for at least 15 seconds, in either case the heating to be in approved and properly operated equipment; and "Pasteurized" shall refer to milk or milk products when so processed; provided that nothing contained herein shall be construed as excluding any other process which is acceptably demonstrated to be equally efficient and is approved by the health authority.

S. "Milk Fat" or "Butter Fat" refers only to natural milk fat.

T. "Dipped" shall apply only to pasteurized milk or pasteurized milk products, intended for sale for human consumption, which has been placed in the container for delivery to the customer by dipping, pouring by hand or by any method other than a mechanical filler approved by the health authority.

U. "Dairy" or "Dairy Farm" is any place where milk is produced.

V. "Milk Plant" is any place or establishment (other than a dairy farm, unless it is operated by a producer-distributor) where milk is collected, processed, stored, bottled, pasteurized, or otherwise prepared for sale or distribution.
