

512. It shall be unlawful for any person who is subject to the provisions of Section 509 of this sub-title to take, collect or use for testing purposes any unfair sample or to make the Babcock reading of any sample the fat of which is not at a temperature between one hundred and thirty-five degrees (135°) and one hundred and forty degrees (140°) Fahrenheit, or to under-read, over-read or erroneously manipulate the test used for determining the percentage of butter fat in any milk or cream so purchased or received, or to falsify any part of the record of any such test. In all tests of cream, the quantity used in the test bottle shall be either nine (9) or eighteen (18) grams by weight, not measure, and the test shall be read with the aid of an approved meniscus remover.

513. Every person who is subject to the provisions of Section 509 of this sub-title who purchases or receives milk on the basis of its weight shall have such weight ascertained by a person duly licensed as weigher by the University of Maryland, and every such person who purchases or receives milk or cream on the basis of its butter fat content shall have such content ascertained and the samples used for such ascertainment drawn by a person duly licensed as sampler by said University. Immediately after the milk and/or cream shall be so weighed or tested, a record thereof shall be made in ink or with indelible pencil by the licensed weigher or tester who weighed or tested the same. Such record shall show the name of the producer, or his number where he is identified by number, in a manner satisfactory to said University, the location of the farm on which the milk and/or cream was produced, the marks by which the samples thereof may be identified, the weight, where the milk was purchased or received on the basis of its weight, and the butter fat content where the milk and/or cream were purchased or received on the basis of such content. All such records shall bear the date when such milk was weighed or such milk and/or cream was tested and the license number and signature of the weigher or tester who weighed or tested such milk and/or cream, and, together with evidence of payment for such milk and/or cream on the basis of such records, shall be kept for at least twelve (12) calendar months from the date thereof at the place where the milk or cream recorded thereon was received, and during such period shall be open to inspection at all reasonable times by the University of Maryland, and at the request of any person who produced any milk or cream shown upon any such record, that portion of the record which relates to the milk or cream produced by such person shall be open to the inspection of that person at any and all reasonable times.
