

cover a period of not more than sixteen (16) days. Composite samples to which an appropriate preservative has been added shall be made up of aliquot parts taken from each of the several lots of milk and/or cream purchased or received from each producer, and composite samples of the milk and/or cream of all producers shall cover the same period of time, unless permission is granted in writing by the said University for samples of milk and/or cream to cover different periods of time. The rack or container where composite samples are held shall be plainly labeled to show the date of the first and the last day of the period covered by such composite samples. All composite samples shall be tested within three (3) days following the close of the period covered by such samples. Such samples must be tested on the premises where they are taken, unless permission in writing is granted by the said University to test said samples in another designated laboratory. After all composite samples have been tested, their residue shall be held on the premises where they were tested, intact, available, properly refrigerated and in a condition suitable for check test for a further period of not less than seven (7) days. Composite samples shall be of such size that the residue for check tests shall be sufficient to make duplicate Babcock tests. Every person required by Section 509 of this sub-title to have a permit shall, within two (2) days after the day on which any test herein provided for shall have been made, furnish to the producers of such milk and/or cream so tested a written or printed statement of the result thereof, showing the period of time during which said composite samples were taken.

515. Any person desiring to obtain a license to weigh or sample milk, or a license to test and sample milk or cream, shall make application to the University of Maryland therefor, and shall pay to the said University an application fee of One Dollar (\$1.00) for a license to weigh and sample milk, or a fee of One Dollar and Fifty Cents (\$1.50) for a license to test and sample milk or cream. Such applicant shall take an appropriate examination, to be conducted by the said University. If such applicant shall satisfactorily pass such examination and satisfy the said University as to his good character, he shall be entitled to receive from the said University the kind of license for which he so qualified, upon the payment of the further sum of Two Dollars (\$2.00) if it be a license to weigh and sample, or Three Dollars (\$3.00) if it be a license to test and sample. All such licenses shall be good for the calendar year of issue unless and until sooner revoked or suspended by said University, and shall be renewable annually upon application without examination upon the payment of a renewal fee of Two Dollars (\$2.00) for a license
