

modeling, removal and demolition of all buildings and structures, or parts thereof, in Baltimore County, and provide for the inspection thereof, to regulate smoke conditions; providing procedure for adoption or amendment of building rules and regulations, the printing of same and their use as evidence; providing injunctive relief for violations or threatened violations, and criminal penalties for the violation of certain provisions and of any rules or regulations promulgated by the said Commissioners; requiring adequate provisions for waste, sewage and drainage disposal from any building or structure in Baltimore County, and providing for approval and inspection by the Buildings Engineer of plans and installations.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That Sections 63, 64, 65, 66 and 67 of Article 3 of the Code of Public Local Laws of Maryland (1930 Edition), title "Baltimore County", sub-title "Building Regulations", be, and the same are hereby repealed, and that five new sections be, and they are hereby, enacted in lieu thereof, said new sections to be known respectively as Sections 63, 64, 65, 66 and 67, to follow immediately after Section 62 of said Article, and to read as follows:

63. The County Commissioners of Baltimore County are hereby authorized and empowered to appoint and employ some suitable person as Buildings Engineer of Baltimore County, and such number of Building Inspectors, assistants, stenographers, clerical and other help as it may deem necessary. The Buildings Engineer of Baltimore County shall have general educational equipment at least equal to that of graduates of high schools. The County Commissioners of Baltimore County, when appointing a Buildings Engineer, shall give first consideration to the qualifications of those who are graduates in Engineering from a recognized college or technical school of collegiate grade. The Buildings Engineer shall be a person of broad experience and high standing in the Engineering profession, and shall have had charge of important engineering projects over a period of at least five years. If the person appointed as Buildings Engineer is not a graduate in Engineering from a recognized college or technical school of collegiate grade, he shall have had not less than ten years' experience in engineering, during five years of which he shall have been in charge of important projects in structural engineering. The Buildings Engineer and Building Inspectors, and all other personnel, shall be removable from office at any time in the discretion of the County Commissioners, and shall be paid such compensation for their services, and expenses in connec-
