

line to the Triangulation Station Wap. on the northern point of Pawpaw Cove which area shall be reserved for the taking and catching of oysters with tongs; all that area lying within one fourth mile of the western shore of Poplar Island; all that area within one half mile of Plum Point; all that area within one and one half miles of Sandy Point, Hackett Point, Tolly Point, and Thomas Point; all in Anne Arundel County; and the following oyster bars: Holland Point, Three Sisters, Parkers Rock (Bay Shore and Long), Flagpond, Swan Point, Hickory Thicket, Entrance Lump, Whitemarsh, Gum Spring, Huntingfield, Windmill Flats, Muddy Drain, and Lighthouse Lump; all defined by the charts of the Oyster Survey of 1906 to 1912 on record in the office of the Department of Tidewater Fisheries.

(i) *Privileges of a Chesapeake Bay Dredging License—Seasons.* It shall be lawful to take or catch oysters by dredge between the first day of November and the fifteenth day of March, next succeeding, both inclusive.

(j) *Dredge on Unlicensed Boats.* It shall be unlawful for the owner or master, or any person on board any boat in this State, to affix any crank, spool, winder or other equipment for casting or hauling a dredge to any unlicensed boat, or to have on board any boat any dredge, unless such boat be licensed.

(k) *Character of a Dredge Boat.* It shall be unlawful to use any power boat or vessel of any kind in the taking or catching of oysters by dredge, and the captain or master of any dredge boat shall not have on his boat any equipment or motor of any kind, whether attached to said boat or not, which is adapted to or can be used in the propulsion of said boat; provided, however, that a separate boat may be used in towing, pushing or pulling any dredge boat to or from an oyster bar when such dredge boat is not engaged in taking or catching oysters.

(l) *Size and Nature of the Dredge.* It shall be unlawful for any person to use or employ in catching or taking oysters in the waters of the State or to have in his possession any scoop, dredge, scrape or similar instrument having a tooth bar more than forty-two inches in length measuring from the outside teeth on dredges used in dredging on rock bottoms or forty-four inches in length measuring from the outside teeth on dredges used in dredging on mud bottoms, or of a weight exceeding two hundred pounds. No "devil catcher", "devil diver" or similar device shall be had in possession or used on any dredge boat by any captain or any other person for the purpose of being attached to the dredge for steering same to the bottom.
