

the District and the general public; (4) that types and classes of facilities be separated as to function, so that individuals or groups having related recreational interests may pursue their activities unhampered by, and without interference with, those otherwise occupied; (5) that each facility have sufficient net area to perform properly the function for which it has been designated; and (6) that there be a sufficient number of each type of facility.

C. For the purpose of accomplishing these objectives, and to protect the health, safety, comfort and welfare, when the Vice-Chairman and Park Commissioner, in the exercise of his discretion, shall find (1) that any parks or portions of parks or of any recreational center or community building under the Commission's jurisdiction in the portion of the District located in Montgomery County are too greatly crowded, either regularly or occasionally, or (2) that such action by him is necessary for other reasons to effectuate the purposes above declared, the Vice-Chairman and Park Commissioner is authorized and empowered (1) to permit, facilitate, or limit the type of recreational use and opportunity in question; (2) to divide such park, recreational center or community building or portions into different recreational or play areas; (3) to equip said different play areas with adequate and generally uniform recreational equipment; (4) to issue permits to individuals, adults or minors, or groups of individuals who may apply for the use of such facilities, which permits may grant exclusive use of such facilities to the permittee and may limit the said permittee to the use of the area and equipment to which the permit relates. The existing procedure adopted by the Commission of issuing permits for the use by informal or organized groups of local citizens or to individual citizens or non-resident citizens or groups, for the use of buildings or parts thereof located in the park system, including recreation rooms, community rooms, and tennis courts, at certain hours on certain days, and for certain playfields, is hereby approved, ratified and sanctioned; and this procedure may be extended to any other building or facility, owned or operated by the Commission or within its jurisdiction and the Vice-Chairman and Park Commissioner is authorized to provide for the continued operation of this system of permits and to assign or employ a permit clerk or clerks and inspectors in connection therewith.

D. The Commission is authorized within its discretion to extend its public recreational program or any part of it to communities and areas in Montgomery County outside the District in the event that such extension is requested by formal resolution of the governmental agency having jurisdiction
