

consistent with this sub-title for the examination and licensing of well drillers and such examinations may be oral or written and shall be of a practical nature.

22. The Department shall, upon payment of the required fee, issue licenses to such persons as have by said examination shown themselves competent, and qualified to engage in the business, trade or calling of well driller.

23. The Department shall have the power to revoke the license of any well driller if the same was obtained through error or fraud, or if the recipient thereof has a second time wilfully violated any of the provisions of this sub-title or any of the lawful rules or regulations prescribed by said Department. Any person whose license has been revoked may, after the expiration of one year from the date of such revocation, apply for a new license.

24. All operations on the drilling, boring, coring, digging or construction of wells shall be under the continuous and immediate supervision of a licensed well driller.

25. No well shall be drilled until a permit has been received from the Department. In applying for a permit the driller shall give such information as said Department shall require. As a condition to the issuance of a permit, said Department may require that samples of the materials encountered in drilling the well shall be preserved and submitted to said Department. Upon the completion of the drilling of any well or wells, a final report shall be filed by the driller with said Department, giving the log of each well, the size and depth thereof, the diameters and lengths of casing and screen installed therein, and in the case of water wells the static and pumping levels and the yield of the well, and such other information pertaining to the construction or operation of the well as said Department by its rules and regulations may require.

26. A licensed well driller shall not undertake any operations on the drilling, boring, coring, digging or construction of a water well for any owner who is required to obtain a permit for the production and appropriation of waters from said well under Section 4 of this Article until said owner shall have obtained such permit from the Department but a permit shall not be refused for domestic use on a farm.

27. Owners of wells shall maintain wells in accordance with the rules and regulations of the Department. The owner of a
