

Examiners shall report annually to the Board of Medical Examiners of the Medical and Chirurgical Faculty of Maryland, in detail, all of their transactions.

428. Every person receiving a certificate from said Board shall file the same at once with the Clerk of the Circuit Court of the county in which he or she may now reside or with the Clerk of the Circuit Court of Baltimore City. It shall be the duty of the Clerk to register the name of said person and the names of the examiners signing said certificate in a book kept for such purpose as a part of the records of his office, and the number of the book and the page therein containing said recorded copy shall be made by the said Clerk upon the face of said certificate, which shall be his license to practice chiropody. In all legal proceedings said records shall be prima facie evidence of all matters therein contained. A certificate once registered may not be registered in another court. A certificate shall be returned to the Board on demand if holder has been found guilty of charges at a trial before the Board; said certificate shall be returned by the Board at end of suspension period. No certificate shall be valid unless it contains thereon the receipt for the current year's license fee.

431. It shall be the duty of the Police Commissioner of Baltimore City, and of the Sheriff of each County in the State, to see that all persons treating the human foot in the State shall be legally registered chiropodists according to the provisions of this sub-title, and to report to the Board of Chiropody Examiners and State's Attorney of the City or County all cases of the violation of this sub-title, whereupon the State's Attorney shall promptly prosecute those violating any of the provisions of this sub-title.

432. From and after June 1, 1945, any person not heretofore authorized to practice chiropody in this State and desiring to enter upon such practice, shall file with the said Board of Chiropody Examiners, upon payment of a fee of twenty-five dollars, a written application for examination, together with satisfactory proof that the applicant is not less than twenty-one years of age, is of good moral character and has obtained a preliminary education of four years' instruction in a high school and two years' instruction in a College of liberal arts or sciences. The fact that such instruction has been received by the applicant must be evidenced by a certificate satisfactory to the said Board of Chiropody Examiners. Such applicant must also, before presenting him or herself for examination, be a graduate of a reputable and legally incorporated school or college
