

relating to the establishment and operation of vending stands by blind persons in public buildings in this State.

Under the provisions of this Bill it is doubtful if the State, or any Department thereof, could lawfully permit a person who is not blind to operate a concession in a public building. There may be occasions when a blind person is not available for an undertaking of this character, in which event the State would have no authority to act. Consequently, I have vetoed this Bill.

### CHARLES COUNTY

#### SENATE BILL No. 245

AN ACT to add 19 new sections to Article 9 of the Code of Public Local Laws of Maryland (1930 Edition), title "Charles County", to be under a new sub-title "Electrical Examiners", these sections to be known as Sections 105B to 105T, and to follow immediately after Section 105A of Article 9, creating a Board of Electrical Examiners and providing for the examination and licensing of electricians employed in the installation of electrical apparatus and wiring in Charles County.

The validity of this Bill is open to question in that the provisions of Section 105T are not indicated by its title. Furthermore, the Bill may very well prohibit a person holding a license as a master electrician under the local law in force in Baltimore City from performing any work in Charles County without obtaining a license under the provision of this Bill, if it is approved. While that probably would not affect the validity of the law, it does present for consideration a matter of policy and leads to a result, which it seem to me, should be avoided. I have concluded, therefore, to veto the Bill.

This Bill purports to clarify provisions of Section 2 of Article 25A of the Annotated Code with respect to Chartered Counties and the grant of powers enumerated therein as delegated to a County Council. The purpose of this law is amply
