

I am vetoing this Bill because it violates that portion of Section 29 of Article 3 of the Constitution which provides that every law enacted by the General Assembly shall embrace but one subject and that shall be described in its title. This Bill is designed to increase the salary of the substitute trial magistrate in Somerset County and to increase the compensation of the members of the Liquor Control Board of Somerset County. A further objection is that this Bill contains an emergency clause and, of course, its provision could not be applicable to the incumbents at the time the Bill became effective.

This Bill is designed to make certain alterations to the provisions of Article 59 of the Code in so far as that Article relates to the Board of Managers of the Eastern Shore State Hospital.
