

(b) To extend its water, sewage or refuse disposal systems beyond the corporate limits of the City;

(c) To enter upon or do construction in any County public way (except State highways) for the purpose of installing or repairing any equipment or doing any other things necessary to establish, operate and maintain the systems described in Section 1 hereof. In connection with such action the City need not obtain any permits or pay any charge for these operations, but it must notify the County of its intent to enter on the public way and leave the public way in a condition not inferior to that existing before. Should the City desire to perform any such operation on or under any State highway, it shall first comply with the provisions of Section 21 of Article 89B of the Code of Public General Laws of Maryland;

(d) To provide a connection, either free or at cost, as the City may decide, with water and sanitary sewer mains for all property abutting on any public way in which a sanitary sewer or water main is laid, so that when any water main or sanitary sewer is declared ready for operation by the City, all abutting property owners, after reasonable notice, shall connect all fixtures with such water or sewer mains. The City, or the appropriate official thereof, may require that, if existing fixtures are unsatisfactory, new ones be installed and may require that all cesspools, sink drains and privies be abandoned and left in such a way as not to injure public health. Likewise, all wells found to be polluted or a menace to health by the City, or an appropriate official thereof, shall be abandoned and closed;

(e) To delegate to any qualified employee or agent, while in the necessary pursuit of his official duties with regard to the water, sewage or refuse disposal systems of the City, the right of entry at all reasonable hours and after reasonable advance notice to the owner, tenant or person in possession, upon any private premises and into any building in the City or in those portions of the County served by the City's systems;

(f) To enter into any contract or agreement with the United States Government for the connection of the water, sewage or drainage systems of the United States Naval Academy, or of any Federal installation, with the system or systems of the City, and to enter into any other agreement which the City deems necessary for the proper construction, maintenance and operation of the City's systems or of those of the United States Government;

(g) To adopt such ordinance or ordinances as may be necessary or appropriate to prevent the discoloration or pollution by any person or corporation of any water used or to be used
