

this section of this Act, the Board of County Commissioners of Anne Arundel County shall proceed in the manner as now provided by Article 33A of the Annotated Code of Maryland (1951 Edition).

SEC. 2. *And be it further enacted,* That the Board of County Commissioners of Anne Arundel County may prepare, as soon as it deems it expedient, such plan or plans as in its judgment is necessary or required, for the control and disposition of surface waters within the limits, or any part of, Anne Arundel County, and shall thereupon divide said County, or any part thereof, into drainage areas which shall be determined, as near as may be, by topography or by the natural flow of surface waters.

SEC. 3. *And be it further enacted,* That the Board of County Commissioners of Anne Arundel County may determine, upon petition of any property owner or owners in the drainage areas fixed in accordance with Section 2 of this Act, or upon its own motion, that one or more drainage areas within the limits of Anne Arundel County, in the interest of the public health, welfare and safety, is in need of a storm water or surface water drainage system. After having made said determination, the Board of County Commissioners of Anne Arundel County shall advertise in not less than two issues of at least two newspapers published in Anne Arundel County, that the Board of County Commissioners of Anne Arundel County has proposed to construct in the area determined upon, or in part thereof, a storm water or surface water drainage system. Such advertisement shall give the approximate cost of the construction of the storm water or surface water drainage system to be built and the general area in which such system is to be installed. Such advertisement shall advise those persons interested that a hearing will be held by the Board of County Commissioners of Anne Arundel County at a time and place named in said advertisement at which all interested parties may be present and will be heard. The Board of County Commissioners of Anne Arundel County shall be prepared to exhibit at such hearing a plan for said drainage area and a general plan for the storm water or surface water drainage system to be installed therein, including the length and size of pipes and such other technical information which may be necessary to inform generally any person or persons of the extent and nature of the storm water or surface water drainage system to be constructed. In addition to such plans, the Board of County Commissioners of Anne Arundel County, shall
