

CHAP. 410.

CHAPTER 409.

Passed Mar. 7, 1850. *An act entitled, a supplement to the act of December Session, eighteen hundred and forty-seven, chapter two hundred and forty-nine.*

Preamble.

WHEREAS, great benefit from the application of chemical science to agriculture has been demonstrated in the performance of the duties under the act to which this is a supplement; and whereas, the agricultural interest from the vastness of its importance to the welfare of the State, demands more liberal facilities than those afforded by the original act; and whereas, in the performance of the duties under said act, much expense in the purchase of materials, fitting up of temporary laboratories in the several counties, and procuring suitable means of visiting each section of the counties, and other necessaries to the perfect and just discharge of indispensable duties are incurred, for which there is no adequate allowance in the original act aforesaid—Therefore.

Addition of \$500 to salary

Be it enacted by the General Assembly of Maryland, That with a view to the remedy thereof, the additional sum of five hundred dollars be annually allowed to the officer appointed in virtue of the original act, to be paid in the same manner, and at the same time as his salary is now provided to be paid by the said original act.
