No. 7

(Senate Joint Resolution 7)

Joint Resolution urging the Congress of the United States to request the U. S. Army Corps of Engineers to finalize its plans for impoundment of water for the Washington Metropolitan Area.

WHEREAS, The Special Committee on the Potomac River of the Maryland Legislative Council in its study of the Potomac River and its many problems has been cognizant of the special needs of the Washington Metropolitan Area, one of which is the urgent necessity for water supply for the area, and

WHEREAS, In discussing possible solutions for this and other problems affecting Washington, the Committee reported: "Therefore, the solution would seem to lie in impoundment of water. Whether River Bend should be built, and where, or what kind of a dam or dams should be built, are problems best resolved by the Corps of Engineers. Delay in presenting to the public a program for impoundment has only increased the problems in the Washington area. This Committee feels that further delay will compound the present inadequate situation", and

WHEREAS, The Committee in its recommendations, reported the following:

"That Congress be urged to request the U. S. Army Corps of Engineers to finalize their plans for storage of water for the Washington Metropolitan area, so that the location of a storage structureS and its reservoirS can be determined. The land necessary for the structureS and the reservoirS should be acquired so that orderly development in the area affected may proceed without later interruption.", now, therefore, be it

*Resolved by the General Assembly of Maryland, That the Congress of the United States be urged to request the U. S. Army Corps of Engineers to finalize their plans for impoundment of water for the Washington Metropolitan Area so that the IF ANY land IS required for any structureS and its reservoirS IT may be acquired, and be it further*

*Resolved, That the Delegation from Maryland in the Congress of the United States be urged to implement this Resolution.*

Approved March 6, 1958.
