

(3) *Sorghum halpense* (L) Pers., Johnson grass and such other seeds or bulblets as the State Board of Agriculture from time to time may designate as prohibited noxious seeds in the public interest.

(2) "Restricted Noxious weed seeds" are the seeds of such weeds as are very objectionable in fields, lawns, and gardens of this State, but can be controlled by good cultural practices and the seed of which is restricted by this sub-title.

*Restricted Noxious weed seeds in this State are the seeds of:*

(1) *Cuscuta* spp., Dodder

(2) *Convolvulus arvensis* (L), Bindweed

(3) *Allium vineale* (L), Wild garlic

(4) *Cynodon dactylon* (L) pers., Bermuda grass

(5) *Agrostemma githago*, Corn cockle and such other seeds or bulblets as the State Board of Agriculture from time to time may designate as restricted noxious seeds in the public interest.

(k) The term "labeling" includes all labels, and other written, printed, or graphic representations, in any form whatsoever, accompanying and pertaining to any seeds whether in bulk or in containers, and includes representation on invoices.

(l) The term "advertisement" means all representations, other than those on the label, disseminated in any manner or by any means, relating to seed within the scope of this sub-title.

(m) The term "record" includes all information relating to the shipment or shipments involved and includes a file sample of each lot of seed.

(n) The term "stop sale" means an administrative order provided by law, restraining the sale, use, disposition, and movement of a definite amount of seed of a specific lot.

(o) The term "seizure" means a legal process carried out by court order against a definite amount of seed of a specific lot.

(p) The term "kind" means one or more related species or subspecies which singly or collectively is known by one common name, for example, corn, oats, alfalfa, and timothy.

(q) The term "variety" means a subdivision of a kind characterized by growth, yield, plant, fruit, seed, or other characteristics, by which it can be differentiated from other plants of the same kind.

(r) The term "lot" means a definite quantity of seed identified by a lot number or other mark, every portion or bag of which is uniform within recognized tolerances for the factors which appear in the labeling.

(s) The term "hybrid" means the first generation seed of a cross produced by controlling the pollination and by combining (1) two, three, or four inbred lines; (2) one inbred or a single cross with an open-pollinated variety; or (3) two varieties or species, except open-pollinated varieties of corn (*Zea mays*). The second generation and
