

*present capacity for future use in connection with the supply or distribution of water and any integral part thereof, including water supply systems, water distribution systems, reservoirs, dams, wells, intakes, mains, laterals, pumping stations, standpipes, filtration plants, purification plants, hydrants, meters, valves and equipment, appurtenances, and all properties, rights, easements and franchises relating thereto and deemed necessary or convenient by the District for the operation thereof.*

*(f) The term "sewerage system" shall mean and shall include all plants, systems, facilities or properties used or useful or having the present capacity for future use in connection with the collection, carrying away, treating, neutralizing, stabilizing or disposal of sewage, industrial wastes or other wastes, and any integral part thereof, including sewage treatment plants, disposal fields, lagoons, pumping stations, drainage ditches, surface water, intercepting ditches, outfall sewers, trunk sewers, intercepting sewers, lateral sewers, force mains, pipes, pipe lines, conduits, equipment, appurtenances, and all properties, rights, easements and franchises relating thereto and deemed necessary or convenient by the District for the operation thereof.*

*(g) The term "sewage" shall mean the water carried wastes created in and carried, or to be carried, away from residences, hotels, schools, hospitals, industrial establishments, commercial establishments or any other private or public building, together with such household and industrial wastes as may be present.*

*(h) The word "improvements" shall mean such construction, erection, repairs, replacements, additions, extensions and betterments of and to a water system or a sewerage system as are deemed necessary by the District to place or to maintain such system in proper condition for the safe, efficient and economic operation thereof or to meet requirements for service in areas which may be served by the District and in which no existing service is being rendered.*

*(i) The word "cost" as applied to a water system or a sewerage system shall include the purchase price of any such system or the cost of acquiring all of the capital stock of the corporation owning such system and the amount to be paid to discharge all of its obligations in order to vest title to the system or any part thereof in the District, the cost of improvements, the cost of all lands, properties, rights, easements, franchises, and permits acquired; the cost of all machinery and equipment, financing charges, interest prior to and during construction and for one year after completion of construction, cost of engineering and legal services, plans, specifications, surveys, estimates of cost and of revenues, other expenses, necessary or incident to the determining of the feasibility or practicability of any such acquisition, improvement, or construction, administrative expenses, and such other expenses as may be necessary or incident to the financing herein authorized, to the acquisition, improvement, construction of a water system or a sewerage system and the placing of the same in operation by the District. Any obligation or expense incurred by the District prior to the issuance of revenue bonds under the provisions of this sub-title for engineering studies and for estimates of cost and of revenues and for other technical or professional services which may be utilized in the acquisition, improvement or construction of such system, may be regarded as a part of the cost of such system.*
