

necessary to secure adequate information on the character and condition of the streams of the Conservancy District as they now exist or may be affected by the future discharge of sewage and industrial and other wastes into the said stream.】

【 (c) 】【 (b) To co-operate with the legislative and administrative agencies of the signatory bodies, or the equivalent thereof, and with other 【interested】 commissions and 【similar organizations】 *federal, local governmental and non-governmental agencies, organizations, groups and persons* for the purpose of promoting uniform laws, rules or regulations for the abatement and control of pollution of streams and the utilization, conservation and development of the water and associated land resources in the said Conservancy District.

【 (d) To disseminate to the public information on the aims and purposes of the Commission and on the harmful and uneconomical results of stream pollution, through the issuance of bulletins, circulars, correspondence, literature and reports.

(e) To co-operate with other organizations engaged in fact-finding and research activities on the treatment of sewage and industrial wastes or other wastes, and if deemed advisable, to institute and conduct such research and fact-finding activities.】

*(c) To disseminate to the public information in relation to stream pollution problems and the utilization, conservation and development of the water and associated land resources of the Conservancy District and on the aims, views, purposes, and recommendations of the Commission in relation thereto.*

*(d) To cooperate with, assist, and provide liaison for and among, public and non-public agencies and organizations concerned with pollution and other water problems in the formulation and coordination of plans, programs and other activities relating to stream pollution or to the utilization, conservation or development of water or associated land resources, and to sponsor cooperative action in connection with the foregoing.*

*(e) In its discretion and at any time during or after the formulation thereof, to review and to comment upon any plan or program of any public or private agency or organization relating to stream pollution or the utilization, conservation or development of water or associated land resources.*

(f) (1) To make and, if needful from time to time, revise and to recommend to the signatory bodies, reasonable 【,】 minimum standards for the treatment of sewage and industrial or other wastes now discharged or to be discharged in the future to the streams of the Conservancy District, and also 【,】 for cleanliness of the various streams in the Conservancy District.

*(2) To establish reasonable physical, chemical and bacteriological standards of water quality satisfactory for various classifications of use. It is agreed that each of the signatory bodies through appropriate agencies will prepare a classification of its interstate waters in the District in entirety or by portions according to present and proposed highest use, and for this purpose technical experts employed by appropriate state water pollution control agencies are authorized to confer on questions relating to classification of interstate waters affecting two or more states. Each signatory body agrees to submit*
