

the face of each Restricted Electrician license shall be plainly stated the specific type of device upon which the licensee shall be privileged to perform electrical repair and maintenance work. Such licensees shall not be privileged to make original installation of said specific devices, nor to perform electrical wiring by way of repair or replacement which requires making direct connection with the main electrical service line of any building or structure. The board shall have authority to issue Restricted Electrician licenses for the following purposes:

(1) For the repair and maintenance of electrically operated heating, refrigeration and air-conditioning equipment.

(2) For the repair and maintenance of electrically operated signs.

(3) For the repair and maintenance of other specifically designated electrically operated equipment.

8-11.

Four times each year, i. e., during the months of January, April, July and October, the Board shall conduct written examinations of eligible applicants for the licenses of Master Electrician and Restricted Electrician. Written notice of the date, hour and place of examination shall be mailed to each eligible applicant at least fourteen (14) days prior to the date of the examination.

8-12.

(a) Any person desiring to secure a license as a Master or Restricted Electrician shall submit to the Board on forms provided by the Board his application for permission to take the required written examination for the license of his choice, together with an application fee of \$5.00. All information necessary to complete said application shall be furnished by the applicant in writing and under oath to the best of his knowledge, information and belief.

(b) Applicants for either class of license must be at least 21 years of age.

(c) An applicant seeking permission to take the written examination for the license of Master Electrician must either

(1) have been continuously engaged during the three years immediately preceding the date of his application as an apprentice, journeyman or helper under the direction and supervision of a Master Electrician licensed in Anne Arundel County or

(2) have successfully completed at a trade school or other educational institution a formal course of study of and training in electrical installations which, in the opinion of the Board, should have provided him with the knowledge and skill required of a Master Electrician,

(d) An applicant seeking permission to take the written examination for the license of Restricted Electrician must have

(1) complied with either sub-section (c)(1) or sub-section (c)(2), supra, or
