

~~(h)~~ (I) [(g)] Imitation ice cream is any frozen substance, mixture or compound regardless of the name under which it is represented, which is made in imitation or semblance of ice cream, or is prepared or frozen as ice cream is customarily prepared or frozen, and which is not ice cream, frozen custard, sherbet, water ice or fruit ice or *ice milk* as they are defined in this section.

~~(i)~~ (J) [(h)] Frozen ice confections are "water ice" or "fruit ice" as herein defined, manufactured into factory-formed individual servings, which must be purveyed to the consumer in properly identified individual packages, bags or suitable sanitary wrappers, except they may be frozen without agitation, may contain harmless flavoring and the acid requirements provided for in the definition of "water ice" or "fruit ice" need not be met.

~~(j)~~ (K) [(i)] Frozen sherbet confections are "sherbet" as herein defined, manufactured into factory-formed individual servings, which must be purveyed to the consumer in properly identified individual packages, bags or suitable sanitary wrappers, except they may be frozen without agitation, may contain harmless flavoring and the acid requirements provided for in the definition of "sherbet" need not be met, and it may contain not more than fourteen per centum by weight of total milk solids, of which not more than two and one-half per centum may be milk fat.

~~(k)~~ (L) [(j)] Frozen ice confections or frozen sherbet confections shall be manufactured for sale, stored, sold or dispensed only in individual portions, packages or containers prepared in such form at the place of manufacture and cannot be used in the manufacture of milk shakes. Every such individual portion, package or container shall be labeled in letters not less than $\frac{1}{8}$ inch in size with the words "Frozen Ice Confection" or "Frozen Sherbet Confection," respectively.

(l) Ice milk means the pure, clean frozen products made from a combination of "milk products", sugar, dextrose, corn syrup in dry or liquid form, water, with or without egg or egg products, with harmless flavoring and with or without harmless coloring, and with or without added "stabilizer" and emulsifier" composed of wholesome edible material. It shall contain not more than one-half of one per centum by weight of "stabilizer", not more than one-fifth of one per centum by weight of emulsifier, not less than four per centum, nor more than seven per centum by weight of milk fat, and not less than eleven per centum by weight of total milk solids. In no case shall any ice milk weigh less than four and one-half pounds per gallon and contain less than one and three-tenths (1.3) pounds of total food solids per gallon. Ice milk, as herein defined, shall be manufactured for sale, stored or dispensed in individual pint, quart or half-gallon packages or containers prepared in such forms at the place of manufacture and cannot be dispensed in bulk form either in individual portions or in the preparation of milk shakes or other milk drinks, it being the legislative intent that the sale of ice milk shall be for off-premises consumption only. No retailer who dispenses ice milk for public consumption shall have an open or partially filled pint, quart or half gallon package or container of ice milk on his premises. Every such individual pint, quart, or half-gallon package or container of ice milk shall be plainly and distinctly labeled as "ice milk" in letters as large as the largest letters on said package or container.
