CHAPTER 427

(Senate Bill 506)

AN ACT to direct the Board of County Commissioners of Allegany County to engage competent professional engineering services to prepare a preliminary survey and report of a project for a water transmission main extending from Savage River Dam to a reservoir in the City of Cumberland together with a water filtration and/or a water chlorination plant and including certain necessary appurtenances; authorizing the said Board of County Commissioners to borrow an amount not to exceed \$300,000.00 and to issue bonds therefor for the purpose of providing plans and specifications for such project and for engaging complete supervision of its construction including service for project location and right-of-way acquisition and construction; providing that in lieu of issuing part or all of said bonds the County Commissioners may accept funds from any governmental unit or agency of the United States, for the purposes of this project; and relating generally to the said project for a water transmission main, a water filtration and/or water chlorination plant, and such necessary appurtenances thereto.

SECTION 1. *Be it enacted by the General Assembly of Maryland*, That the County Commissioners of Allegany County, a body corporate, are directed to engage competent professional engineering services at a fee not to exceed the sum of \$25,000.00 to prepare a preliminary survey and report of the project more fully described in Section 3 of this Act together with estimates of cost details of contracting and plans and specifications therefor.

SEC. 2. *And be it further enacted*, That the County Commissioners of Allegany County, a body corporate, in order to provide funds for engaging complete supervision of its construction including field service for project location and right-of-way acquisition and construction, are authorized to borrow from time to time in such amounts as they shall deem necessary, money on the faith and credit of said county, and to issue therefor bonds, provided that in the
