

The undersigned beg leave respectfully to repeat that they and the Faculty of the College desire to continue to afford to the Committees any further information that may be required on these subjects, and that they hold themselves in readiness so to do.

Respectfully your ob't serv'ts,

WILL. H. TUCK,

D. CLAUDE,

JNO. RIDOUT,

A. RANDALL,

B. T. B. WORTHINGTON.

1st. To give a full statement of the proceedings of the Board since 1st January 1850, would be but to transcribe the records kept by the Secretary. The books containing these may be seen by any member of the Legislature, upon indicating his wish to the President of the Senate, who is the Secretary, and will show them on the spot, for inspection.

The number of regular students, in the year 1850, was 78; the number of graduates 3. 1851, regular students 88; no graduates that year. 1852, regular students 96; graduates 11. 1854, regular students 81; graduates, none that year. 1855, regular students 76; graduates 4. Besides the graduates above referred to, there were several who received English Diplomas. The number of graduates for 1856, is 8. Of those who have graduated during the period above mentioned, nine received their education gratuitously. During the same period, there were forty-five, and at this time there are twenty-one free or non-paying students.

2nd. The amount received from the State since 1st January 1850, has been \$15,000. The other resources of the College have been the profits of an invested fund, which has yielded about \$1800 per annum. The tuition fees have amounted to a sum which has fluctuated within the above mentioned period, from \$1,069.21, in 1850, to \$1,940, the highest sum to which this source reached during the said period. Owing to the increase of students since the recent re-organization, the receipts from this source will probably reach \$2000 for the present year. A part of the invested fund, \$10,000, has been appropriated to building Professors' residences, on the College grounds, within the past year, which, to that extent, will diminish the income from that source.

It is manifest, that without an investigation which would require more time than is left of the session of the Legislature, it is impossible to state in detail and minutely how said donations and other revenues have been appropriated. If notice had been given in time, that such information would be required, it could and would have been cheerfully furnished.
