Annapolis, February 10th, 1858. }

*To the House of Delegates of Maryland.*

*Gentlemen:*

In compliance with your request of the 29th January, to furnish your House with a list of the persons now constituting the Board of Visitors of the Maryland Hospital, showing the residences of said visitors, date and manner of their appointment, and what vacancies exist in said board, I herewith enclose a communication received from the President and Secretary of the said Maryland Hospital, by which it will be perceived who are the persons constituting the present board, and the dates of their respective appointments and elections—that eleven of said visitors, as required by the charter, reside in the city of Baltimore, and four of them reside in the counties, for which they are named. And that vacancies exist in the board, as to the visitors for the other counties, which the board propose to fill as soon as can properly be done, in the way and mode which they think they are justified in doing, under the provisions of their charter. As it seems proper that this communication enclosed should remain on record in the Executive Department, I have to request that as soon as your House shall have made a copy of it, you will order that it be returned to this Department.

THOS. H. HICKS.
