

(ii) *Artificially sweetened ice cream means the pure, clean, frozen products made from a combination of milk products, sorbitol, cyclamate calcium, saccharin, non-nutritive artificial sweeteners and or other harmless, non-nutritive edible carbohydrates for use only by persons who must restrict their intake of ordinary sweets, with or without egg or egg products, with harmless flavoring and with or without harmless coloring, and with or without added stabilizer or emulsifier composed of wholesome edible material. It shall contain not more than one half of one per centum by weight of stabilizer and not more than one fifth of one per centum by weight of emulsifier, not less than ten per centum by weight of milk fat, and not less than twenty per centum by weight of total milk solids; except when fruit, nuts, cocoa, chocolate, maple syrup, cakes or confection are used for the purpose of flavoring, said flavoring shall be sweetened only with an artificial sweetener, then such reduction in milk fat and in total milk solids as is due to the addition of such flavors shall be permitted, but in no such case shall it contain less than eight per centum by weight of milk fat, nor less than sixteen per centum by weight of total milk solids. In no case shall any artificially sweetened ice cream weigh less than four and one half pounds per gallon and contain less than one and six-tenths (1.6) pounds of total food solids per gallon.*

(iii) *Subject to the standards provided by law or prescribed by rules or regulations by the State Department of Health pursuant thereto, any person may manufacture or prepare artificially sweetened ice cream, containing an artificial sweetening agent approved by the State Department of Health. The manufacturer shall place the artificially sweetened ice cream only in pint packages or containers which shall be conspicuously labeled, "artificially sweetened" immediately preceding the words "ice cream," in similar type at least one-half the size of the type used for the words "ice cream" and on the same contrasting background, and in addition shall label thereon "intended for diabetics under medical advice" and any other warning statement which the State Department of Health may prescribe. The label shall also contain a statement in terms of percentage by weight of protein, fat and carbohydrates, the total number of calories per ounce, the number of calories contributed by carbohydrates and any carbohydrates other than lactose, and the name of each ingredient entering into the composition other than flavors. The artificially sweetened ice cream shall not be sold in any quantity or in any manner other than in a sealed or unbroken pint package or container.*

(e-1) (B) (C-1) (i) *Ice milk means the pure, clean frozen products made from a combination of "milk products," sugar, dextrose, corn syrup in dry or liquid form, water, with or without egg or egg products, with harmless flavoring and with or without harmless coloring, and with or without added "stabilizer" and emulsifier composed of wholesome edible material. It shall contain not more than one half of one per centum by weight of "stabilizer," not more than one fifth of one per centum by weight of emulsifier, not less than four per centum, nor more than seven per centum by weight of milk fat, and not less than eleven per centum by weight of total milk solids. In no case shall any ice milk weigh less than four and one-half pounds per gallon and contain less than one and three-tenths (1.3) pounds of total food solids per gallon. Ice milk as herein defined may be manu-*
