

of this ~~Subtitle~~, SECTION, each county plan shall delineate those areas where—

~~(i) (A)~~ (I) Community water supply systems must be provided;

~~(B)~~ (II) Individual water supply systems may be installed and used during an interim period, pending the availability of a programmed community water supply system;

~~(C)~~ (III) Individual water supply systems may be installed and used for an indefinite period.

~~(ii) (A)~~ (IV) Community sewerage systems must be provided;

~~(B)~~ (V) Individual sewerage systems may be installed and used during an interim period, pending availability of a programmed community sewerage system;

~~(C)~~ (VI) Individual sewerage systems may be installed and used for an indefinite period.

~~(4)~~ In addition, every ~~required~~ county plan shall—

(i) Provide for the orderly expansion and extension of community water supply systems and community sewerage systems in a manner consistent with the needs and plans of the area;

(ii) Provide for adequate sewage treatment facilities which will prevent the discharge of untreated or inadequately-treated sewage or other waste of a liquid nature into any waters, or otherwise provide for the safe and sanitary treatment of sewage and other liquid waste;

(iii) Delineate with all practical precision those portions of the county which community water supply systems or community sewerage systems may reasonably be expected to serve ~~by July 1, 1975, by July 1, 1980, after July 1, 1980,~~ WITHIN THE SUCCEEDING TEN-YEAR PERIOD, and any portions in which the provision of such services is not reasonably foreseeable, taking into consideration all related aspects of planning, zoning, population estimates, engineering, and economics, and all State, regional, municipal and local plans;

(iv) Establish procedures for delineating and acquiring, on a time schedule pursuant to Subsection ~~d(3)~~ 4(III) above, necessary rights-of-way or easements for community water supply or community sewerage systems;

(v) Set forth a time schedule and proposed methods of financing the construction and operation of each programmed community water supply or community sewerage system, together with the estimated cost thereof;

(vi) Be submitted to official planning agencies having jurisdiction, including comprehensive planning agencies with area-wide jurisdiction, if such exist; for review as to consistency with programs of planning for the area, and such reviews shall be transmitted to the Department with the proposed plan; and GRAMS OF PLANNING FOR THE AREA; AND

(vii) Include provision for periodic amendment or revision of the county plan.
