

time it appears that some protection must be granted to adjacent land and waters and that the entire subject needs considerable study in order that the interests and equities of all persons and agencies may be observed and respected; and

WHEREAS, It is desirable that a Commission be appointed to prepare regulatory legislation; now, therefore, be it

*Resolved*, By the General Assembly of Maryland, That the Governor of Maryland is requested to appoint a Commission as proposed herein to review the problems arising from the harmful uses of pesticides, herbicides and any other chemicals used to repel insects; and be it further

*Resolved*, That the Governor is requested to name to the Commission representatives of each of the following: The Game and Inland Fish Commission, the Department of Water Resources, the Department of Chesapeake Bay Affairs, the Board of Natural Resources, THE DEPARTMENT OF HEALTH, the University of Maryland, the Farm Bureau and Grange, Maryland Arborist Association, Maryland Pest Control Association, Nurserymen, fruit growers, vegetable producers, florists, chemical manufacturers, exterminators; and representatives of the public, giving consideration to all geographic areas of the State in making such appointments; and be it further

*Resolved*, That the Commission is requested to review any legislation designed to regulate and control the problems identified by the Commission and to prepare such legislation for submission to the 1968 General Assembly; and be it further

*Resolved*, That copies of this Resolution are sent to the Governor of Maryland.

Approved May 4, 1967.

No. 26

(Senate Joint Resolution 49)

Senate Joint Resolution relating to the establishment of senior activity centers.

WHEREAS, it has been demonstrated that the establishment and operation of senior activity centers has proved highly beneficial to the health and normal, active life of elderly persons; and

WHEREAS, these centers can provide information, referral, and health services, as well as cultural and recreational activities, which tend to reduce the physical and mental deterioration which comes with age; and

WHEREAS, such senior activity centers can develop day care programs for the families in need of such arrangements for their elderly members; and
