

[14.

When oral or written examinations are required, they shall be held at such time and place as the Board shall determine. When examinations are required on fundamental engineering subjects (such as are ordinarily given in college curricula), the applicant shall be permitted to take this part of the professional examination prior to his completion of the requisite years of experience in engineering work, and satisfactory passage of this portion of the professional examination by the applicant shall constitute a credit for a period of ten years. The Board shall issue to each applicant upon successfully passing the examination in fundamental engineering subjects a certificate stating that he has passed the examination and that his name has been recorded as an engineer-in-training.

The scope of the examinations and the methods of procedure shall be prescribed by the Board with special reference to the applicant's ability to design and supervise engineering works so as to insure the safety of life, health, and property. Examinations shall be given for the purpose of determining the qualifications of applicants for registration separately in engineering and in land surveying. A candidate failing on examination may apply for re-examination at the expiration of six months and will be re-examined without payment of additional fee. Subsequent examination will be granted upon payment of a fee to be determined by the Board, which fee shall not exceed ten dollars (\$10.00).]

14.

(a) *Examinations shall be held at such time and place as the Board shall determine. When examinations are required on fundamental engineering or land surveying subjects (such as are ordinarily given in approved engineering or land surveying curricula), the applicant shall be permitted to take such examination prior to his completion of the requisite years of experience, and credit for the successful completion of this examination by the applicant shall be valid for a period of ten years. The Board shall issue to each applicant, upon successfully completing the examination in the fundamentals of engineering or land surveying, a certificate stating that he has passed the examination and that his name has been recorded as an engineer-in-training or land surveyor-in-training.*

(b) *The examination in the principles and practice of engineering or land surveying shall not be taken by an applicant until he has satisfied all of the other requirements for registration set forth in this article.*

(c) *The scope of the examinations and the methods of procedure for taking and grading shall be prescribed by the Board to test the applicant's ability to design, plan and direct engineering works or land surveying so as to insure the safety of life, health and property. Separate examinations shall be given in engineering and in land surveying.*

(d) *An applicant who fails an ~~examination~~ EXAMINATION may apply for re-examination within six months of the date upon which notice of his prior failure was sent by the Board, which application may be granted upon payment of a fee not to exceed twenty dollars (\$20.00). An applicant who fails the re-examination may, upon application and payment of a fee not to exceed twenty dollars (\$20.00), be admitted to a third examination.*
