

forth in a general narrative statement and on a map; (5) the demonstrated need for each project which will include a presentation of appropriate facts justifying such proposed construction and (6) the estimated cost of each construction item in the program. Any material change in the finally adopted five-year program, excluding only normal deviations from the listed estimated costs shall require an amendment of the program in accordance with the provisions of this section. With the programs the Commission shall also submit the same information for all projects which have been previously approved with respect to which a construction contract has not been let and one year has elapsed since the last date of approval. For the purposes of this section, the five-year projected programs of major extensions of sewer and water facilities shall include sewer mains of fifteen inches or over, water mains of sixteen inches or over, sewage or water pumping stations, force mains, storage and other major facilities, except *such* [with respect to] water mains [, those] which will provide only local service and may be of a hereinabove mentioned size merely as a small segment of a future main so as to avoid unnecessary and uneconomical duplication at the time of construction of a subsequent major project. The program shall indicate, by project, those lines for which construction contributions have been made or committed, together with the amounts of such contributions, as of the date of the preparations of the proposed program. Each program shall be available to public view and inspection at the Commission offices and a reasonable number of copies shall be made available to satisfy all reasonable requests therefor.

[(b)] (c) Recommendations of Park and Planning Commission. Fifty or more days before the required adoption date of its annual five-year sewer and water construction programs, the Commission shall transmit to the Maryland-National Capital Park and Planning Commission its proposed programs, along with a general statement in explanation of each. The Sanitary Commission shall not thereafter adopt its final construction programs for the ensuing five years until it shall have received from said Park and Planning Commission its comment and recommendations on the proposed programs or until twenty-five days shall have passed, whichever shall be sooner. If the Park and Planning Commission shall recommend any changes or deletions in the proposed program, it shall state its reasons therefor, in writing, and the Sanitary Commission shall re-examine its proposed programs and give due weight to the recommendations of said Park and Planning Commission before final adoption of the programs, it being the intent of the General Assembly that the two Commissions shall make every reasonable effort to reach agreement with respect to the programs required by this section, ~~but that the Sanitary Commission's right to make the final decision in the event of disagreement shall not be impaired, except as hereinafter provided.~~ If the Sanitary Commission shall propose a resolution amending any duly adopted construction program in accordance with this section, ~~such proposed resolution.~~ ANY RESOLUTION PROPOSING AN INTERIM AMENDMENT TO A FIVE YEAR WATER OR SEWER PROGRAM shall, before final adoption, be transmitted along with a statement of explanation, to the said Park and Planning Commission and the same procedures shall be followed as set forth herein for the five-year program and annual revisions thereof.

[(c)] (d) Submitted to Montgomery County Council **[.]** and to
