*No person granted a license under the provisions of this subtitle shall install or repair electrical wires, conductors, or apparatus for electric light, heat or power purposes after the expiration of said licenses, or after said license has been revoked as herein provided, unless the license or renewal has been renewed as herein provided. Any person so granted a license under the provisions of this subtitle, unless the license has been revoked as hereinafter provided, shall be granted a renewal of the license without examination of the applicant, provided an application is made to the Board by the holder of the license and the license fee as set forth in a schedule of fees enacted by Ordinance of the Board of County Commissioners of Harford County, is again paid. If the license shall be reciprocal between other counties in this State and written approval is given by the Board no fee will be required, and renewal of the license shall be for a period of one (1) year. Any such renewal of license shall have the same weight as evidence in any court of this State as hereinbefore provided for the original license. One year renewals shall be granted in like manner upon expiration of any renewal of license upon making application and paying the fee.*

It is the duty of the licensee to have his policy so written as to place the Board on notice at the expiration or cancellation thereof, and said license or any renewal thereof shall become utterly void and of no effect should any such insurance for any reason whatsoever become inoperative or ineffective, regardless of the regular date of expiration of said certificate of renewal.*
