

60.

*The operation, erection, handling, storage, or transportation of any tools, machinery, equipment, supplies, materials, or apparatus, including but not limited to antennas, antenna supports, flagpoles, and other similar facilities, the moving of any house or other building or structure, or any part thereof, and the performing of tree trimming or activities of like nature, under, over, by or near high-voltage lines is hereby expressly prohibited, if at any time during the course thereof any part of any person or object will come or be brought within ten feet of any high-voltage lines, unless such high-voltage lines have first been effectively guarded against dangerous accidental contact, and appropriate protective arrangements shall have first been made with the owner or operator of such high-voltage lines, by either:*

1. *The installation of physical barriers to prevent physical contact with such high-voltage lines; or*

2. *The relocation of such high-voltage lines, either laterally or vertically; or*

3. *The de-energizing of such high-voltage lines and the grounding of same; provided, however, that nothing herein shall be construed, or shall operate to impose upon any owner or operator of any high-voltage lines the duty or obligation to effect any such precautionary measure at his or its expense or to obligate any such owner or operator to de-energize or ground any high-voltage lines if service to the public would thereby be substantially interfered with or if the health, safety or welfare of the public would thereby be endangered.*

61.

*When any such operation, erection, handling, storage, transportation, or moving is to be performed within ten feet of any high-voltage lines, the person or persons responsible for performing the same shall promptly notify the owner or operator of the high-voltage lines of the work to be performed and such person or persons shall be responsible for the provision, subject to any necessary agreement of the owner or operator of the high-voltage lines, of one or more of the safety measures required by Section 60 of this Article before proceeding with any work within said ten feet.*

*Upon notification and appropriate arrangements being made by such person or persons, and within a reasonable time thereafter under all the circumstances involved, the owner or operator of the high-voltage lines shall perform such acts as are reasonably necessary for such owner or operator to perform, as set forth in and subject to the provisions of Section 60 hereof, to guard against danger from accidental contact.*

*It shall be the duty and responsibility of the owner, lessee or employer of any equipment, including but not limited to cranes, derricks, power shovels, trimming rigs, pile drivers or similar apparatus, any part of which may be used near any high-voltage lines, to:*

A. *Acquaint themselves and their employees with this law and the rules and regulations prescribed and promulgated pursuant to Section 62 hereof, and;*

B. *Post and maintain in plain view of the operators of such equipment a permanent, weather resistant warning sign, legible at*
