

(7) Or shall have been graduated from a non-accredited Architectural School requiring not less than four years in a curriculum approved by the Board and shall have had at least six (6) years of diversified practical training supervised by a registered architect prior to filing his application, at least three (3) of which shall have been in the United States;

(8) Or shall submit evidence of thirteen (13) years of diversified practical training supervised by a registered architect or architects prior to filing, at least three (3) of which shall have been in the United States—applicants who have not completed their professional education may, at the discretion of the Board be given credit for the years they have successfully completed.

(b) All applicants meeting the qualification of subsection (a) may take the examination given by the Board, and those who successfully complete such examination shall be registered by the Board.

(c) An applicant for registration as an architect in this State who has previously been registered in any other State or in the District of Columbia or in any foreign country and who is in good standing in the other jurisdiction at the time he files an application in this State may be registered in this State without examination upon payment of all fees required by the Board, if an applicant establishes to the satisfaction of the Board that the jurisdiction in which he is registered has registration requirements at the time the applicant became registered at least equivalent to the requirements in this State and that he has complied with these requirements.

520.

The following persons are not required to be registered as Architects in accordance with the provisions of this subtitle.

(1) Professional engineers licensed by the Maryland State Board of Registration for Professional Engineers and Land Surveyors who perform architectural services which are purely incidental to the practice of engineering and not in conflict with the basic definition of the Practice of Architecture in Section 516 (d); but no such engineer shall use the designation "architect" unless licensed in accordance with the provisions of this subtitle.

(2) Professional landscape architects who are engaged in the preparation of drawings for, and the supervision of, planting, grading, walks, paving and such minor structures, normally included as a part of their work.

(3) Real estate brokers, dealers and agents in making of the appraisals of properties and the selection of sites.

521.

(a) A corporation or partnership, as such, may not be licensed or registered to practice architecture or to use any form of the title "architect" in connection with the corporate or partnership name.

(b) The right to engage in the practice of architecture is a personal right, based upon the qualifications of the individual
