

(d) As a land surveyor-in-training:

(1) Graduation from a surveying or engineering curriculum of four scholastic years or more approved by the Board and passing a written examination in the fundamentals of surveying; or

(2) Graduation from a surveying or engineering curriculum of four scholastic years or more or their equivalent other than the ones approved by the Board and a specific record of four years or more of additional experience in surveying work of a character satisfactory to the Board, and the successful completion of a written examination in the fundamentals of surveying.

(e) As a land surveyor trainee:

Within one year of June 1, 1967, any person who has had three or more years of experience as a trainee in land surveying work satisfactory to the Board may file with the Board a letter of intent to become registered as a land surveyor. Any such person who files such a letter of intent shall be eligible for registration as a land surveyor at such time as he satisfies the following two requirements:

(1) Acquires a specific record of six years' experience in land surveying work of a character satisfactory to the Board indicating that he may be competent to practice land surveying and presents evidence of such experience satisfactory to the Board;

(2) Successfully completes an eight-hour written examination in the fundamentals of surveying and an eight-hour examination in the principles and practice of land surveying.

The provisions of this subsection (e) shall expire six (6) years after June 1, 1967.

(f) As a property line surveyor:

Any person may be registered as a property line surveyor upon completion of the following two requirements:

(1) Acquires a specific record of 8 (eight) years experience in property line surveying of a character satisfactory to the Board indicating he may be competent to practice property line surveying and presents evidence of such experience satisfactory to the Board; and not less than 30 (thirty) years of age.

(2) Successfully completes a written or oral examination in the fundamentals of property line surveying and the principles and practice of property line surveying.

(g) A person holding a certificate of registration to engage in the practice of engineering or land surveying on the basis of comparable qualifications, issued to him by a proper authority of a state, territory, or possession of the United States, or the District of Columbia, who, in the opinion of the Board, **[met the present]** *qualified under requirements equivalent to the requirements of this Article as they existed* at the time of such prior registration based on verified evidence may, upon application, be registered without taking the written examination provided for in this Article.

(h) No person shall be eligible for consideration for registration as a professional engineer or professional land surveyor or property line surveyor or certification as an engineer-in-training or a land surveyor-in-training who is not of good character and reputation.
