

*extensions of sewer and water facilities shall ~~be~~ INCLUDE those sewer mains of fifteen inches or over, water mains of sixteen inches or over, ~~sewage facilities~~ SEWAGE OR WATER PUMPING STATIONS, FORCE MAINS, STORAGE AND OTHER MAJOR FACILITIES, except such water mains which will provide only local service and may be of a hereinabove mentioned size merely as a small segment of a future main so as to avoid unnecessary and uneconomical duplication at the time of construction of a subsequent major project;*

(2) *Additions of new projects and the deletion, modification, or rescheduling of previously approved projects with respect to which a construction contract has not been let, or will not be let during the current fiscal year;*

(3) *An indication, by project, of those lines for which construction contributions have been made or committed, together with the amounts of such contributions as of the date of the preparation of the proposed program. Addenda shall be submitted for projects for which contributions are made or committed prior to approval or amendment of the Commission's capital improvements program by the respective county governing bodies; and*

(4) *The following information with respect to each project, as applicable: (i) the estimated maximum diameter, length, and location of water and sewer lines; (ii) the design capacity, and approximate location, of pumping stations; (iii) the maximum population which could be served by each sewer construction item as it is proposed to be designed; (iv) the maximum area limits which could be served by gravity systems for each sewerage system construction item and the area which each such item is designed to serve, with such areas to be set forth in a general narrative statement and on a map; (v) the demonstrated need for each project which will include a presentation of appropriate facts justifying such proposed construction; and (vi) the estimated cost of each construction item in the program.*

(c) *County governing body action.*

(1) *Each county governing body shall finally act upon, by way of approval, disapproval or modification, as more particularly herein-after set forth, the Commission six-year capital improvements program. SUCH APPROVALS OR MODIFICATIONS MAY INCLUDE AS A PART THEREOF THE DESIGNATION OF A WATER OR SEWER MAIN AS BEING OF CONTROLLED OR LIMITED ACCESS FOR SERVICE TO DESIGNATED AREAS WITHIN THAT COUNTY. Such final action on each annual Commission six-year capital improvements program shall occur only after public hearings thereon which may be conducted in conjunction with public hearings on the county governing body's own and other agencies' six-year programs or capital budgets. In its final action, the county governing body may make such amendments, revisions or modifications as it may determine, subject to the limitations otherwise herein provided. Any such amendment, revision or modification shall not become final until after it is submitted to the Commission for written comment, with at least thirty days' provided therefor. In their review for approval or amendments to the six-year capital improvements program, the respective county governing bodies shall seek the advice and recommendation of the Maryland-National Capital Park and Planning Commission.*
