

*governing body, through its appropriate agency, has approved the installation of individual sewage disposal facilities, unless the county governing body has first approved such extension. Any extension requiring county governing body approval under this subsection shall be submitted to the county governing body in the usual form of communication between the county governing body and the Commission, and unless within thirty days after receipt of the Commission's material the county governing body advises the Commission that the extension should not be made, the Commission may proceed with such construction. In addition, the Commission is authorized to provide sanitary sewer service in those drainage areas tributary to county approved trunk sewers and county approved pumping stations outside of the county approved service areas conditioned upon the property being developed in accordance with a master plan adopted by the Maryland-National Capital Park and Planning Commission and approved by the county governing body and notwithstanding the foregoing, the Commission is authorized to provide sewer service to existing structures located in such areas without condition.*

*(e) Cooperation among the Counties and agencies. It is the intention of the General Assembly that the Sanitary Commission, the Maryland-National Capital Park and Planning Commission, the County Council for Montgomery County and the Board of County Commissioners for Prince George's County shall cooperate to the fullest extent in seeking to attain maximum harmony of the water and sanitary sewerage construction programs with the other elements of orderly growth in the two Counties. The two Commissions, the County Council and the Board of County Commissioners are encouraged to meet and discuss the capital improvements program in discussion and work sessions, and between or among themselves, as applicable, exchange such information and details as may be necessary to achieve the coordination contemplated by this Section of the capital improvement program, and the Commission shall give to the county governing bodies such additional information and details, either orally or in writing, as those bodies may request in connection with their considerations of the capital improvements program.*

*(f) Transitional provisions. The existing five-year programs of the Commission and any interim amendments thereto, as approved by the county governing bodies and adopted by the Commission pursuant to the Five Year Program law formerly stated in this Section 83-96(71-45), as last repealed and re-enacted, with amendments, by Chapter 194 of the Acts of 1967, shall continue in efficacy until the first six-year capital improvements program, approved and adopted pursuant to the foregoing subsections, is established for the fiscal year commencing July 1, 1970. Further, in order to permit continuing maximum harmony of the water and sewerage construction programs of the Commission with the other elements of orderly growth in the bi-county Washington Suburban Sanitary District during the transition period, interim amendments to the extant five-year water and sewerage programs may be initiated by a county governing body, proposed by the Commission, and adopted, in accordance with the procedures and conditions specified for interim amendments to the five-year programs by Chapter 194 of the Acts of 1967, provided, however, that the provisions of this subsection, and the provisions of Chapter 194 of the Acts of 1967*
