

~~(K)~~ (L) Upon completion of a sanitary fill lift, the entire surface of the intermediate cover shall be inspected monthly and all cracked, eroded or uneven covers shall be repaired.

(M) THERE SHALL BE AN ADEQUATE NUMBER OF LARGE COMMERCIAL TYPE WASTE CONTAINERS LOCATED AT THE ENTRANCE OF COUNTY OPERATED SANITARY LANDFILLS. THESE CONTAINERS SHALL BE ACCESSABLE TO THE PUBLIC AT ALL TIMES.

Section 11-410

- (a) The burning of refuse on sanitary landfills shall be prohibited.
- (b) Fire breaks, between fill trenches and cells, not less than three (3) feet in width, will be provided and maintained to assure control in the event of fire. In area type fills, earth fire breaks will be constructed, isolating each fill projection into areas not exceeding one (1) acre in size.
- (c) Fire protection shall be provided under any or all of the following methods:
 - (1) An adequate supply of water shall be available at the site, or
 - (2) A stockpile of cover material shall be maintained reasonably close to the working face of the fill, or
 - (3) A nearby organized fire department voluntarily agrees in writing, to provide immediate service whenever called, or
 - (4) Means and devices mutually agreeable to the operator and Fire Marshal may be used.

Section 11-411

- (a) When the licensee states in writing to the Department of Inspections and Permits, that he has completed sections of the construction of the sanitary landfill, the following steps and measures shall be taken prior to his release from his ~~completion~~ maintenance bond.
 - (1) An inspection of the entire site shall be made by the representatives of the County Health Officer, Fire Marshal, and Department of Public Works, in congress, before the earthmoving equipment is removed from the site.
 - (2) The licensee shall leave a satisfactory permanent organic growing cover or an approved road-type permanent surfacing to prevent erosion and to control the blowing of dust.
 - (3) Any necessary corrective works shall be performed before the landfill project is accepted as completed.
 - (4) When a sanitary landfill is accepted as complete, there shall be no further refuse disposal on the site. The licensee shall close all access roads locked with gates.
 - (5) Arrangements shall be made for the repair of all cracked and eroded areas in the final cover during the year following completion of the fill.
 - (6) At the completion of the fill operations, if the licensee shall perform all of his obligations under the requirements of the completion maintenance bond and as otherwise prescribed, the full amount of the bond
