

system based on the size of the pipe supplying such system shall cover without additional cost, one or more gas burning appliances supplied with gas from such pipe.

(b) Where no work has been done under a permit issued hereunder, the holder of the permit may deliver same to the Department and upon cancellation thereof, there shall be refunded to him seventy-five percent (75%) of the fee paid therefor; provided that application for such refund is made within six months of the issuance of such permit.

#### Section 12-1905

Upon the completion of an installation, the holder of the permit shall notify the Department which shall cause the installation to be inspected within twenty-four hours of such notice, exclusive of Saturdays, Sundays and holidays, or as soon thereafter as practicable.

#### Section 12-1906

When any part of an installation is to be hidden from view, the person making the installation shall notify the Department and such installation shall not be concealed or covered until it has been inspected and approved by the department. The Department shall have the authority to remove or require the removal of any structure or covering that prevents proper inspection.

#### Section 12-1907

Before any property is connected to any gas supply, a certificate that such property meets the minimum acceptable standards as prescribed by this Subtitle shall be obtained from the Department. Because of the difference in speed and type of piping, an installation involving liquefied gas may be connected by the supplier prior to the certificate but the certificate must be obtained within five (5) days of installation for continued use.

#### Section 12-1908

(a) If upon inspection, any installation for which a permit is required is found to be in violation of the provisions of this subtitle, the Department shall notify the holder of the permit of the nature of such violation in writing and the same shall be corrected within ten days after such notice or such other period of time as may be specified by the Department.

(b) If any gas system installed before or after the enactment of this subtitle is found by the Director of the Department to be dangerous to persons or property because defective or improperly used or installed, the Director shall notify the owner or lessee of the property in writing, setting forth the nature of such dangerous condition, and such person shall make such changes or repairs as are necessary to put such in a safe condition within five days or such shorter or longer period as may be specified by the Director.

(c) Upon failure of any person to comply with a notice issued pursuant to this section, any permit which has been issued for the installation of such equipment shall be revoked by the Department and no connection certificate or occupancy permit shall be issued, or if such certificate has previously been issued, it shall be revoked.
