

bass or pike are caught in nets, seines or other devices legally engaged in other fishing those fishing such nets shall immediately return such fish to the waters uninjured, except it shall be lawful for anyone fishing said nets to retain not to exceed one day's legal creel limit of five (5) black bass or ten (10) pike for his own private use during said open season. It shall also be unlawful for any person, firm or corporation to sell or offer to sell, purchase or offer to purchase at any time or to have in possession any black bass or pike whether said fish be caught in tidal or nontidal waters within the State of Maryland, or the waters of any other state and brought into this State; provided, however, that anglers catching said fish by rod, hook and line as hereinbefore provided, and not in excess of the creel limits imposed by Section 316 of this article, shall be entitled to possess and transport said fish so caught; and further provided that nothing in this section shall be so construed as to prevent the shipment in interstate commerce of live bass or pike for propagating, breeding or stocking purposes in accordance with Section 215 of this article, or to prevent anyone from catching or engaging in the catching of black bass or pike under the direction of any State department or agency for propagation purposes or for restocking any waters of this State in accordance with Section 218. The provisions of this subsection shall not apply to the catching, selling, purchasing or possession of black sea bass (*centropristes striatus*).

411Y.

In the event that the owners or operators of said sewage disposal plant fail to submit a plan or to construct the necessary improvements in accordance with an approved plan, the county council or county commissioners of such county, and in Montgomery and Prince George's counties the Washington Suburban Sanitary Commission shall, upon thirty (30) days' written notice from the Department of Health that compliance has not been made with the requirements of this [subsection] section, proceed with and complete the necessary plan and work so that the said sewage disposal plant will conform to the standards herein stated.

761.

(g) Sections where encroachment is imminent and such encroachment would lead to degradation of river and stream, to some form of pollution or adversely [effect] affect the intent of this subtitle.

SEC. 2. *And be it further enacted*, That this Act shall take effect July 1, 1970.

Approved April 15, 1970
