

day of July, 1970 and on the first day of July in each year thereafter, to the Washington Suburban Sanitary Commission, directing the said Commission to immediately prepare and coordinate with the governing bodies the water and sewerage county plans and all revisions and amendments thereto, which are required by or provided for in this section and all of such revisions, plans and amendments shall be submitted by the said Washington Suburban Sanitary Commission to the respective governing bodies not later than October 15, 1969 and annually thereafter no later than October 1st, for their consideration and action. The governing body of each of the two mentioned counties shall hold a public hearing on the county plan, and the annual review thereof, ten days notice of which shall be given by one publication in a newspaper or newspapers of general circulation in the respective counties. Where recommendations have been received from the Maryland-National Capital Park and Planning Commission as provided for in [section] subsection (b) (4) (vi) hereof the Sanitary Commission does not agree therewith, the Sanitary Commission shall submit, in writing, to the applicable governing body, its reasons for not accepting such recommendations and furnish a copy to the said Park and Planning Commission. Where recommendations for any change in a proposed county plan are received from the Park and Planning Commission, the applicable governing body shall separately consider and vote on each item which received such recommendation. After the respective public hearings, each governing body shall review and amend as it may see fit the proposed plan or annual revision thereto and thereafter shall approve the plan or annual revision and submit it to the State Department of Health, all within the time requirements as elsewhere set forth in this section. *This subsection shall not apply to the solid wastes management portion of the county plan.*

387C.

*(b) (3) (VII) Community solid waste disposal systems must be provided.*

*(b) (3) (VIII) Community solid waste acceptance facilities must be provided for use by the residents of the community pending the installation of a programmed collection and transportation system.*

387C.

(b) 4

(i) Provide for the orderly expansion and extension of community water supply systems, [and] community sewerage systems and solid waste disposal systems in a manner consistent with the needs and plans of the area;

(ii) Provide for adequate sewage treatment facilities which will prevent the discharge of untreated or inadequately treated sewage or other waste of a liquid nature into any waters, or otherwise provide for the safe and sanitary treatment of sewage and other liquid waste;

*(iii) Provide for adequate facilities for the treatment, recovery or disposal of solid wastes in a manner that is consistent with the laws of this State relating to air pollution, water pollution and land use;*
